Anna works mainly with real estate, with emphasis on real estate transactions and lease agreements for commercial real estate. She has significant experience with providing advice related to commercial leases and property transactions, and has, among other things, assisted several international investors in the Norwegian property market. She also regularly provides advice related to ESG, and has in-depth knowledge of EU's regulations and the national requirements for the real estate industry related to sustainability, as well as experience with sustainability-related transaction assistance. In addition, Anna often gives lectures and is the author of several articles on sustainability and other relevant commercial real estate topics.
